

Homework 2

الطالبتين:

وجدان عطيه الزهراني

نوره خالد الزبيدي

The problems that an e-commerce store solves:

1. Reduces costs: Such as expenses for employees and rent.
2. Overcomes time constraints: Allows customers to shop at any time.
3. Ease of finding products: Some products are available only on online stores.
4. Solves congestion and queuing issues: Avoids crowded stores and long lines.

Needs Met by an e-commerce Store:

1. Convenience and ease of shopping: Allows customers to shop easily from home or anywhere.
2. Secure payment: Provides safe and reliable payment options.
3. Delivery service: Orders are delivered to the doorstep, saving time and effort.
4. Communication tools: Offers customer service and instant inquiry options.

App:	Advantages	Disadvantages
NAMSHI	Fast shipping and delivery. Multiple payment methods.	Variable product quality. Slightly unaffordable prices. The app focuses mainly on fashion, so there is not much variety in products.
Noon	Fast shipping and delivery. Variety of products. Multiple payment methods.	Inconsistent product quality. Price variations.
SHEIN	Competitive prices. Variety of products. Multiple payment options.
