e-commerce software

Requirements:

User, Product, Inventory and Order Management.

Main Tasks the Software Can Do:

1. **Manage Products and Inventory** *(Add, update, and delete products and set alerts for low stock).*

2. **Process Orders and Payments** *(Handle customer orders, process payments securely, and manage the checkout process efficiently).*

3. **Facilitate Customer Interaction** *(Enable customers to browse products, add them to the cart, and complete purchases while providing support when needed).*

4. **generate Reports** *(Create detailed reports on sales, customer behavior, and inventory, helping businesses make data-driven decisions).*
